MINING, BUSINESS AND STOCKS

DALY-WEST SANK THIS FORENOON

Park City Stock Still an Uncertain Quantity and Keeps the Public Guessing.

THE TETRO TOBOCCANING ALSO.

Daly-Judge Remained Firm - Star Consolidated Suffered Some Reverses.

Considerable trading was done on the ficor of the Mining Exchange this morning and while the volume of buslness was not heavy in the aggregate, it was well distributed among a number of the stocks listed on the big

Generally speaking the market was weak and among the ones to receive a shock was Daly-West, which was knocked down to \$24.50, closing with an offering at \$24.60. Tetro sank to 251/2 cents. On the strength of the announcement of a dividend and the satisfactory progress being made by the South Swansea, that stock took a spurt upwards, a block selling on the open board. Daly-Judge continued to hold its own while Star Consolidated, New York Bonanza and Con. Mercur all suffered losses. A block of Daly was brought out at \$2.40. Grand Central, which is to pay the usual monthly dividend of \$25,000 in a few days, was offered at \$4.42½; a bid of \$4.10 was made, the stock being in no demand. The closing quotations and sales were posted as follows:

STAR CON. SHAREHOLDERS.

Held a Lively Meeting Satuaday - Oppo

sition to Raising Capital Stock. The meeting of the stockholders of the Star Consolidated Mining company

held on Saturday afternoon in the office of Capt. Timothy Egan was a lively one. Opposition to the plan proposed recently to increase the capital stock to 1,000,000 shares was very pronounced, especially when the contract drawn by a combination of gentlemen who have an alleged chlorination process for sale The interests of the latter were repre

sented by a Mr. Landers and Prof. Carmichael who discussed the advantages of their process from their point

When ahe contract was called for Mr. Landers produced it and turned it over to the secretary of the meeting. Harry Joseph, who proceeded to read it so that those assembled could hear every word he uttered.

According to its terms it is proposed to erect a plant at the mine that will handle not less than 100 tons of ore every 24 hours and extract at least 80 per cent of the values in gold, silver and copper, at an expense of not to ex-ceed \$2.50 per ton. Mr. Landers and associates agree to erect the plant, run it for 90 days and do all that it claims without cost to the Star company other than supplying the plant with the ore, and turn it over to the company free of all encumbrance at the end of the

The consideration for all this is the 500,000 shares, the proposed increase, which is to be issued to the gentlemen building the plant and placed in

escrow in a local bank.

The consideration named in the instrument caused the trouble. The opinion seemed quite unanimous that to give away as a bonus half the mine on such a proposition as this one, was not quite the proper thing to do. How-ever, a committee was appointed to investigate further, which is to report at the annual meeting to be held on Thursday next. The committee named consists of J. P. Turner, Marcus E.

Jones and Henry Rives Ellis.

The meeting this week promises to

OPENING RUTH MINE.

White Pine Copper Company Doing Effective Work at Ely. Work is being pushed with energy in the opening of the Ruth mine at lly, Nev., says a publication of that

Having thoroughly proven the magnitude of the ore body on the 300 and 500-foot levels of their Ruth mine, where they have no less than 1,000,000 tons of copper ore blocked out for ex-traction through thousands of feet of development work, consisting of drifts, crosscuts, upraises, etc., the White Pine Copper company people will begin at once the sinking of the shaft below the 500-foot level and the same systematic manner as that pursued in the de-

velopment of those above.
Two pumps, one a sinking and the Two pumps, one a sinking and the other a station pump, arrived at the mine Monday, and both will be put in commission immediately. While the work of driving the shaft to greater dopths is being prosecuted, an abundant supply of ore with which to provide the plant spoken of by Mr. Flemming can be taken from the upper workings.

The mine, we are informed, is show-

The mine, we are informed, is show-ing a marked increase in the value of the ore, and never looked better in its interesting history of development than it does today.

PROSPECTS NEAR CALIENTES. Twenty-six Locations Made Last Week-

Bamberger Gold Property. Special Correspondence.

Calientes, Nev., April 11 .- Twenty-six new locations have been made during the past week within a radius of 20 miles of Calientes and splendid samfree gold, chloride of silver, blackjack, lead, azurite and black oxide of copper have been brought in by

Work on the Bamberger free gold claim is progressing rapidly, nearly 70 feet of tunnel having been run on a foot ledge of \$30 quartz.

A number of eastern invalids camping in Calientes, enjoying the delightfully warm days and cool nights and making daily calls at the Hot Springs bathhouse on the edge of the townsite.

A pleasant party and dance was held at Culverwell's hall Friday evening. and many young ladies from outside camps were in attendance.

Grand Central Dividend.

Special Correspondence.

Provo, April 11 .- The directors of the Grand Central Mining company met here Saturday afternon and declared a dividend of 10 cents a share (\$25,000) on the capital stock of the company, payable on the 14th. The books will close on the 12th.

COMSTOCK'S NEW PUMP. Equipment Can hangie 1,500 Gallon: o' Water Per Month.

The new 700-gallon pump is being in stalled at the Comstock and will soon be ready for active work, says the Park City Record. The station has been completed for some time and everything is in readiness for the opening up both ways of the ledge on the 450 level. The big pump will relieve the two No. 9 sinkers and afford ample protection against any increase of water that the development of the vein may bring about and at the same time be a safeguard against the extra surface flow that the melting snows is likely to make. That the vein has been gradually but surely draining during the past two months of dead work is evidenced by the fact that the pumps are now handling only about 200 gallons per minute, as against over 300 gallons of a very few weeks ago. The combined capacity of the pumps now at the mine and in readiness to operate on the 550-foot level is over 1,500 gallons per minute, so there is no doubt that the development of the ore bodies at that depth can go on uninterruptedly from now on. In fact drifting has already commenced, and, considering the large number of stringrs of fine ore encountered in running the last 20 feet, it is expected that when the ledge proper has been fully opened the showing will be one to gladden the hearts of the shareholders.

BINGHAM CON'S DEBTS. Bond Issue of \$1,000,000 Authorized by

Company's Stockholders.

For the purpose of funding the floating debts of the corporation, a trust deed to secure a bond issue of \$1,000,000 was filed in the office of the county re-cor der last Saturday is signed by the Bingham Consolidated Mining company, which is incorporated under the laws of the state of Maine and is in favor of the Federal Trust company, trustee, a Massachusetts concern. The bonds bear interest at the rate of 6 per cent. They bear date of April 1 of the present year and are due in 10 years with a provision for the payment at any time upon 30 days' notice being given by the debtors. The bonds are exchangeable at the option of the hold-er for 20 shares of the company's stock for each bond, the bonds being of the denomination of \$1,000 each. The deed covers the company's properties and equipment at Bingham

THE CACTUS RESERVOIR. Contractor Dederich is Pushing Work On It.

Superintendent Dederich has the 400. 300-gallon reservoir at the Newhouse about completed and it is now being roofed over. It is safe to predict that, commencing two weeks hence and continuing the remainder of the year the town of Newhouse will be the liveless ndustrial center, in southern Utah. The building of the railroad, great reduciton works and a new town will give employment for all of the idle men and ams in this section.

Reciever Tanner of the Majestic has appointed Judge S. J. Bryan to look after office affairs and to have full charge in Mr. Tanner's absence. A. L. Fartheringham has been installed as day watchman at the smelter and Or-mond Monaham and Morgan Stoddard at the O. K. No other changes have been made. Receiver Tanner made a trip to Salt Lake this week .- Milford

Against the Con. Mercur.

In the damage suit of Mary Freeman , against the Consolidated Mercur Gold Mines company a judgment for plaintiffs by consent has been entered in the district court for \$518. The suit was brought to recover for the death of Frank Freeman, husband and father of plaintiffs, who was killed in defend-ant's mine on Feb. 9, 1904.

RAYMOND AND ILLINOIS.

Two Tintle Companies Are Now Consoli-

dated According to Law. Articles of consolidation of the Raymond Mining company and the Ilit-nois Mining and Milling company into the Raymend-Illinois Mining company were filed in the county clerk's office today. The office of the company is in this city and its capital stock is \$400,-000, divided into shares of the par value

1 stitute the board of directors.

NOW IN THE FIELD

Machinery for Two Rigs Has Ar rived and Construction of First Derrick Begins Tomorrow.

SITE OF "FUEL WELL" SELECTED

About Ten Miles North of the City-Work Under Supervision of Chief Driller Wallace.

By tomorrow afternoon the Union Gas & Pipe Line company, which was organized recently with strong Pittsburg backing to operate in the oil and gas regions north of the city, will have its forces organized for an active cam-

A derrick builder of wide experience in other fields has arrived to take charge of this part of the work and by Wednesday at the latest he will have the first derrick to be put up by the Union under construction.

A representative of the company said this morning that the initial well to be drilled will be known as "fuel well," the expectation being that it will be utilized to furnish natural gas for fuel purposes and the product, when found in large enough quantities, will probably be brought to the city through the old pipe line in use several years ago and deliv. ered to the Utah Light & Rallway conpany in accordance with the contract entered into between the latter and the

Union company.

The site selected for the well is near the old Driver wells, about 10 mires north of the city

Chief Driller Wallace will superintend the setting up of the new rigs and proposes to get to work as soon as possible.

The local officials of the Union company reported this forenoon that the machinery for the two rigs to be placed in the field had arrived,

TO USE DIAMOND DRILLS.

Colorado Fuel & Iron Company Getting Active Again in Iron County.

Advices received today from Iron county brings the information that the Colorado Fuel & Iron company is preparing for an active campaign of development on its vast territory of iron lands. Diamond drills are to be used to prospect the ground to great depth.

Will Leave for Mexico.

Manager S. L. Butler of the Summit Placer company's ozookerite mines at Soldier Summit, is preparing to leave for Mexico tomorrow, where he is manager of a large gold mining proposition. He will be accompanied by a prominent mining expert of Butte, who goes for the purpose of making a thorough examination of the property.

CONCENTRATES.

The Honerine Mining company has some concentrates in today's market. Seven properties are active in the Miner's Basin country in Grand county. The Silver King tramway at Park

City has been equipped with a new L. H. Outzen and Sam Levy have returned from a trip to the Buckhorn

mine near Ophir, The Pioneer lode claim near Filimore is reported to have been bonded to Indiana parties for \$20,000.

The office force in the Newhouse of-

fices are preparing the pay checks for the Boston Con. and other mines. The mill at the Midas property in the Deep Creek country will go into com-

mission during the present week. Charles O. Ellingwood, secretary of the Western Exploration company, ex-pects to return to San Francisco next

The directors of the Hannapah Mining & Smelting company have levied an assessment of a quarter of a cent

W. A. Scott, traveling representative of the Engineering & Mining Journal, has gone to idaho in the interests of that publication.

State Mine Inspector Gomer Thomas is in Fort Duchesne this week inspect-ing mines and meeting with the board of mine examiners.

D. B. McDonald of the Mesaba range iron mining regions of Minnesota, is in the city today en route home from a trip to the Pacific coast.

The Park Record says the force at the Ontario mine is being increased gradually and adds: "Another \$13,000,-000 in dividends may be added to this producer's great record,"

A small force of men is at work at the West Quinev mine at Park City. Upon Manager Turner's return from the east it is expected that it will be very materially increased. Manager Whitley of the American

smelting & Refining company claims o have no knowledge to the effect that he project to build a copper smelter at Murray has been abandoned. Supt. Harrison Clement of the Copper Belt railway of Bingham returned this morning from Lima, O. The new

locomotive ordered recently was sup-posed to have been shipped from the factory on last Friday. Judge Lewis today rendered judgment in favor of defendants in the case of Newton A. Dunyon against the Cane

Springs Consolidated Gold Mining com-pany et al, by which defendant's title o some mining property is quieted, Judge W. I. Snyder, manager of the California mine at Park City, went into

the diggings again this morning. The new strike reported several days ago is said to have widened out to eight feet with only the foot wall exposed John Slockett , Jr., of Houghton, Mich., a son of Director Slockett of the Sheba Mining company with prop-erties in Humboldt, Nev., is in the city today. He is en route to the Navada

mine on an inspection trip and expects to leave for the west tomorrow. A streak of high grade galena ore was encountered in the Majestic pro-perty Thursday. The find is holding out well and promises to be a big thing.

TONE OF MARKET WAS VERY GOOD.

It Opened Active While Prices Were a Fraction or Two Higher.

DEALINGS-WELL DISTRIBUTED.

During Latter Part of the Day Everything Was Dull and Uninteresting.

New York, April 11 .- The stock market pened active and a fraction higher all around, influenced by the cheerful tone of the London market. There were wide openings in United States Steel preferred, Brooklyn Transit and Atchison on sales of 2,500 to 3,000 shares, the advances runring to a large fraction in those stocks. Metropolitan Securities and Union Pacific rose nearly a point. The dealings were well distributed throughout the list. Buying for both accounts caused a further improvement in prices, but the gains were limited mostly to fractions. In Atchison, New York Central, Brooklyn Transit, Tennessee Coal and Colorado Fuel the rise reached about a point. In the less active division Long Island and Pressed Steel Car preferred rose 2 and St. Louis & San Francisco second preferred, Chicago Great Western preferred, Delaware & Hudson and North American 1 to 1½. Prices of the leading stocks averaged ½ above Saturday's close, but were reduced somewhat before 11 o'clock. The market then became dull and irregular.

Marking up of the Eries and Reading about a point was used to cover realizing elsewhere. Anaconda rose 2 and Rock Island preferred 1½, but the course of the market generally was slowly downward. St. Paul, Southern Pacific, Baltimore & Ohlo, Amalgamated and the United States Steel stocks were carried back to last week's level. Consolidated Gas lost 1½ and Metropolitan Street Railway 1½.

Bonds were irregular at noon. improvement in prices, but the gains were

Railway 14.
Bonds were irregular at noon.
Stadier tone developed after the noon-day solling, but there were no decided efforts to lift prices, Delaware & Hudson gained 2% before the buying ceased.
The market during the latter part of the day was dull and uninteresting. Scarcely any of the usual market leaders fluctuated more than 18 and there was no perceptible tendency. perceptible tendency.

The Only Line To St. Louis

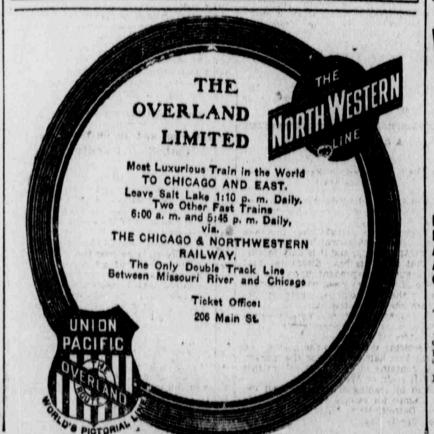

The Burlington road is the only company having its own rails and running solid trains from Denver to St. Louis. Think of this when you come to make your Exposition trip this year. If you do, you will use the Burlington. You can step into our St. Louis Special at Denver at 2:00 p. m. one day, and you are in St. Louis the next afternoon at 6:50, or you can take the vestibuled flyer leaving Denver at 10:35 p. m. arriving in St. Louis the second morning at 7:19. Could you ask for anything

Uniform excellence would be a description of these trains. Their appointments are as nearly perfect as human ingenuity
